SL	Task List	Status	Remarks
2	1. FAQ system functionality		
3	1. FAQ system functionality		
3	2. Third-party integration through API		
4	3. Access control list and security system functionality, >>Authorized users can create new users for the system, but permission settings is not added yet.		
6	4. Document compilation and download functionality		
7	5. New users needs to be added >>Programmer, Assistant Programmer, System Analyst have no user access - they can create appeal cases		
9	6. Current only Secretary has the schedule view case diary. Need to implement for all users who have permission to see the calendar. The calendar's week and day has hour wise timeline now, needs to remove them.		
10	7. From audit, "Nirikkha" will be changed to "Dharabahik biboron".		
11	8. In case creation, "Arzi" name will be changed to "Shongjukti". The first field of the attachment will be named "Arzi". The user can attach several documents, the new attachments will have user defined titles like e-mutation system.		
12	9.History will be named Timeline.		
13	10. Case diaries will be opened for citizens to see the revenue cases - this will be in the landing page, the schedule will show the weekly cases' dates. The case block will contain the names of Badi and bibadi. Only date will be clickable. If clicked, the citizen can see the list of cases of the day containing the columns: Mamla no., mamlar dhoron, Zilla, Badi name, Bibadi name, shunanir adesh.		
14	11. Shunanir Tarikh will be changed to "Dharabahik karjokrom" which will have only text box – "Rayer folafol" instead of "Montobbo", "Shununir Folafoler shongjutki" and "Folafoler montobbo". There will be some specific types of orders which will be provided while providing date. "Montobbo" will be changed "Shunanir adesh".		
122			

NB: More work will need to be done outside of this list as needed.
